

Sequatchie County Schools
2024 - 2025
Classroom Technology Bid Specifications

1. Bid Contract Period

The period for the bid contract will be from the date of the award until June 30, 2025 at 11:59pm Central Time. Please note, as stated again below, that prices must be good for the period of this bid contract.

2. Technical Support

Vendor must provide a toll-free line for technical support at no additional charge to Sequatchie County Schools during the warranty period if out of the local calling area. Vendor is required to respond within 3 business days.

3. Price Protection

All prices must be F.O.B. to Sequatchie County Schools. Prices quoted must be good for the entire period of the bid contract.

4. References

Vendor may provide references with their bid. This is not required, but it is strongly encouraged if Vendor has never worked with Sequatchie County Schools before.

5. Right to Reject Proposals

Sequatchie County Schools reserve the right to reject any or all proposals, to waive technicalities or informalities, and to accept any proposal deemed to be in the best interest of Sequatchie County Schools. Sequatchie County Schools will weigh price, experience, past performance in the county, and references (if provided) before awarding the bid to any vendor.

6. Right to Purchase Selected Items on Bid

Sequatchie County Schools reserve the right to purchase selected items on this bid. If entire funds are not available, Sequatchie County Schools may purchase selected items throughout the lifetime of the bid contract. Prices quoted must be good for the entire period of the bid contract.

7. Public School Purchases/Electronic Proposal

Any other K-12 public school, district, or LEA in the State of Tennessee may make purchases from this contract as long as local bid laws are met. Vendor may wish to notify other districts of this contract but agrees that Sequatchie County Schools will hold no obligations for marketing other than verifying that the contract is in place.

8. Specifications

Full specs for each item must be listed in the bid submission.

9. Itemized Spreadsheet

Within 5 business days of Vendor being notified that the Sequatchie County School Board has awarded them the bid, Vendor must provide a spreadsheet (.csv, .xlsx, or Google Sheet), via email, detailing each item from the bid individually with specs and prices. Please do not email this before the bid award; all bid submissions must be physical only. Electronic submissions before the bid deadline will disqualify vendors from the bid process.

10. Purchasing Logistics

Vendor must accept tax-exempt payment via purchase order. Ordering must be able to be done electronically. Any signatures necessary upon ordering must be accepted in a form that doesn't require physically signing a piece of paper.

11. Shipping

The shipping price must be listed in the bid. (It can either be included with the price of the item or listed separately.) If no shipping price is included, that will mean that there are no shipping and handling charges for that item.

I agree to all of the stated terms and guarantee to meet all said terms, unless otherwise noted, to the satisfaction of Sequatchie County Schools.

Specs

Please feel free to provide as many different items as you're able to provide for each category.

Each category will be considered separately. In other words, if the School Board determines that Vendor A has the best **Laptops** bid but Vendor B has the best **Document Cameras, Other** bid, then the School Board will award both bids with the understanding that we'll buy **Laptops** from Vendor A and equipment from the **Document Cameras, Other** category from Vendor B. Submitting a bid indicates understanding of, acceptance of, and agreement with this process.
